SCIENTIFIC PROGRAMME

THURSDAY, 25th November 2010

12:45-13:45 Light lunch within the industry exhibition

13:45-14:00 Opening remarks
(Christian Winkler, president of NECTAR)

14:00-15:30 Parkinson's disease

14:00-14:30 Value of current pharmacotherapy and deep brain stimulation
(Alexander Storch, Dresden, Germany)

14:30-15:00 Future options for pharmacotherapy
(Wolfgang Oertel, Marburg, Germany)

15:00-15:30 Neural transplantation: current status in the TRANSEURO trial
(Roger Barker, Cambridge, UK)

15:30-16:00 Coffee break within the industry exhibition

16:00-18:00 Dopamine-dependent dyskinesia in Parkinson's disease

16:00-16:30 News from imaging
(Paola Piccini, London, UK)

16:30-16:50 News on L-DOPA-induced dyskinesia I
(Angela Cenci, Lund, Sweden)

16:50-17:10 News on L-DOPA-induced dyskinesia II
(Ayse Ulusoy, Lund, Sweden / Bonn, Germany)

17:10-17:30 News on graft-induced dyskinesia
(Joanna Garcia, Freiburg, Germany)

17:30-18:00 Datablitz

18:00-18:30 NECTAR business meeting

FRIDAY, 26th November 2010

08:30-10:30 Gene therapy in Parkinson's disease

08:30-09:00 Datablitz

09:00-09:30 Dopamine replacement in Parkinson's disease: Delivery of TH and GCH1
(Tomas Björklund, Lund, Sweden)

09:30-10:00 Dopamine replacement in Parkinson's disease: Delivery of AADC, TH and GCH1
(Stephane Palfi, Creteil, France)

10:00-10:30 Datablitz

10:30-11:00 Coffee break within the industry exhibition

11:00-12:00 Special lecture Neuroprotection in Parkinson's and Huntington's disease
(Jeffrey H. Kordower, Chicago, USA)

12:00-13:00 Lunch within the industry exhibition

13:00-15:00 Huntington's disease

13:00-13:30 Developing neural stem cells for clinical transplantation in Huntington's disease
(Karl Johe, Rockville, USA)

13:30-14:00 Transplantation in Huntington's disease
(Guido Nikkhah, Freiburg, Germany)

14:00-14:30 Deep brain stimulation for Huntington's disease
(Jan Vesper, Düsseldorf, Germany)

14:30-15:00 Datablitz

15:00-15:30 Coffee break within the industry exhibition

15:30-17:00 News from other neurological diseases

15:30-16:00 Multiple system atrophy: Current status in experimental and clinical studies
(Gregor Wenning, Innsbruck, Austria)

16:00-16:30 Progressive supranuclear palsy: Current status in experimental and clinical studies
(Günter Högl, Marburg, Germany)

16:30-17:00 Spine injury: Current status in experimental and clinical studies
(Armin Blesch, San Diego, USA)

17:00-17:10 Break

17:10-18:10 Special lecture Ethics and societal aspects in transplantation and gene-therapy approaches for neurological diseases
(Herbert Gottweis, Vienna, Austria)

19:30 Conference dinner

SATURDAY, 27th November 2010

09:00-11:30 Stem Cells

09:00-09:30 Datablitz

09:30-09:50 Neural progenitor cells
(Morten Meyer, Odense, Denmark)

09:50-10:10 Embryonic stem cells
(Jan Pruszk, Boston, USA)

10:10-10:30 IPS-cells
(Alexandra Stolzing, Leipzig, Germany)

10:30-11:00 Coffee break within the industry exhibition

11:00-11:30 Stem cells for Parkinson's disease
(Malin Parmar, Lund, Sweden)

11:30-12:30 Special lecture Stroke: Current status in experimental and clinical studies
(Zaal Kokaia, Lund, Sweden)

12:30-13:30 Light lunch

NECTAR BOARD

Christian Winkler (president)
Roger Barker Angela Cenci-Nilsson
